Summary

Enthusiastic and dedicated professional with a passion for information technology. Eager to channel my skills into the tech industry, where I am dedicated to continual skill growth and leveraging my diverse background to excel in this rapidly evolving field.

I have recently graduated with JustIT in a 12-week software developer bootcamp, learning the fundamentals of HTML, CSS, JavaScript, Git, SQL and Python. I am eager to leverage my transferable skills and newfound programming knowledge to contribute as a junior developer. Since graduating I've been self-studying with courses on Udemy and learning new languages such as React, Tailwind and Kivy.

Education

June 2023 - September 2023

Work Experience

June 2021 – March 2023

Head Chef | Scoff Meals | Enfield (Ponders End)

I have successfully supervised a busy production kitchen that was responsible for producing and distributing meals with carefully calculated calorie counts. In this role, I effectively managed a fast-paced and ever-changing environment by showcasing my exceptional leadership abilities, adept time management skills, adaptability to different situations, strong organisational capabilities, as well as my problem-solving prowess.

- Managed complex kitchen operations, ensuring compliance with food safety standards.
- Supervised and trained kitchen team of 10 to ensure efficient operation.
- Gave regular presentations explaining menu changes. demonstrating strong leadership and clear communication skills.
- Created complex Excel spreadsheets to streamline the food ordering process and ensure less food waste.
- Helped implement infrastructure with new software solutions such as FoodDocs, Kafoodle and Rekk. Showcasing my problem solving skills.

May 2018 – November 2020

Head/Sous Chef | Spring Studios | Camden (Kentish Town)

Events catering for Spring Studios. We produced high volumes of food for production teams during photoshoots. I was responsible for designing seasonal menus, creating daily à la carte offerings, and managing the restaurant's daily operations.

- Designed and cost seasonal menus.
- Liaised with different departments on upcoming events.
- Formed good relationships with vendors/suppliers.
- Worked well within the team to ensure smooth operations.
